

Departmental Considerations

For

Two-year Graduation Afternoon Schedule

Afternoon School
Departmental Considerations

- 1. This is a two-year graduation plan that can be individualized by students. The essential concept is consistent departmental scheduling of GE requirements at specific times and semesters.**
- 2. Science Labs need to offer sections at 3:30-6:30pm and/or channel students into the evening labs, at least one section of each. Also biology and physical science labs should not conflict.**
- 3. FA needs two *different* departmental offerings between Fall and Spring.**
- 4. PS needs two *different* departmental offerings between Fall and Spring.**
- 5. Literature needs two *different* offerings in the Spring.**
- 6. Biology needs to offer first course in the Fall and second courses in the Spring.**
- 7. Education and Business prerequisites should be offered at least on “elective” times.**
- 8. Language for AA will require attendance at the evening school offering.**
- 9. GE afternoon classes on this schedule must be carried to insure equity of opportunity to all students.**
- 10. Developmental classes need to be scheduled “over” core classes for which they are prerequisites. For example, Math 0930 should be scheduled at the same time as Math 1010/1050/1090.**
