5. Is this course designed for a specific group? No Who?
6. Catalog Description: ☐ Now in Print, or ☑ Proposed Below:
   This course will deal with the evolution of computer crime and a basic understanding of computer forensics. It gives the student an understanding of the investigation and prosecution of computer crime cases. The course also covers the 1st and 4th amendments to the Constitution and their application to search and seizure in computer crime related cases. 3 lecture hours per week.
7. Course justification (attach sheets if needed):
   This is an area of importance to all law enforcement. Recent studies show that over 50% of all non violent crime in the future will be computer related. It is critical that our students get a understanding of this area of crime control, to deal with the ever changing arena of computer crime.
8. Are library resources adequate to support this change? Yes If not, how are those resources to be acquired?
9. Are technical and other resources available? Yes If not, how are those resources to be acquired?
   We will need access to computers and the internet for this class.
