Course Learning Outcomes:
Students will acquire skills in collecting and organizing scientific data from field investigations. They will gain familiarity with the geoscientific context of the particular data set under consideration and will discover how the concepts and skills they are acquiring in their other coursework can be developed through interdisciplinary research. Successful completion of this course will prepare them for participation in a research project facilitated by the Colorado Plateau Field Institute (CPFI).

Course Reviewer Comments

**D00286741 (09/02/15 9:10 am):** Rollback: Course has not been through SCC, Ruth asked that it be rolled back.

**D00002376 (09/09/15 6:30 pm):** Rollback: corequisite issue. I can’t do an "OR" co-requisite? In Banner, if I list BOTH courses, it makes you take BOTH courses as a co-requisite. Its an AND field, not an OR field. So, I guess he has to choose which one would be the best one as a co-requisite. Sorry.

**D00189835 (09/11/15 3:26 pm):** Rollback: Kelly: Note Sharon Lee's comments

**D00072043 (09/15/15 4:55 pm):** Added . to corequisite field

**D00002376 (09/16/15 10:18 pm):** Rollback: Kelly is out of town. This course is repeatable for credit. If the title will never change, this number needs an "R" extension. The description needs to have the "repeatable for a max of 3 credits." notation in it.

**D00189835 (09/17/15 10:17 am):** Rollback: Kelly, please note Sharon Lee's comments asking for changes.
