Catalog Description
While assignments in IS 3800 will engage students in a continuous process of self-assessment and plan-building, the IS 3805 Lab, on the other hand, will provide a scaffolding for student advisement. Students will work, through face-to-face individual meetings with a senior interdisciplinary adviser, deeply familiar with the curricula of departments around DSU, to refine and render technically compliant their IAPs.

Course Rotation:
Fall (every)
Spring (every)

Justification for course/change:
INDS 3805 Lab is part of the new Individualized Studies degree core, to be completed in tandem with INDS 3800 Seminar.

Course Learning Outcomes:
During the concurrent, tandem course of IS 3800 / IS 3805, the assignments cumulatively build toward the final Individualized Academic Plan by requiring students to design, implement, evaluate, and modify their curriculum proposals repeatedly, until their professional and personal goals mesh with their own proposed learning outcomes and the general learning outcomes of the IS degree.

How do your Course Learning Outcomes align to your Program Learning Outcomes?

The INDS 3805 Lab aligns with the customized curricular mapping necessary to the INDS degree.

Schedule of lesson activities that meet Course Learning Outcomes

Working closely with the full-time Integrated Studies academic advisor through weekly meetings of the Individualized Studies Lab (IS 3805) enables the students to construct a coherent curriculum that meets their professional goals while following the strict criteria through which the INDS Committee evaluates the merit of each IAP.

Assessment activities that provide evidence of student learning

Evaluations will occur twice: first, in the third week of the semester, giving students an opportunity to drop the course if they find the degree requirements do not suit their needs or abilities. Evaluations will then take place again in the final month of the semester, when the IS Committee will make a decision to reject or accept Fred’s IAP as appropriately coherent and rigorous. Under the advisement of the three mentors described above (outside faculty mentor, IAS faculty mentor, and IAS academic adviser), students include courses in her or his IAP that ideally meet their academic needs.
