Schedule Type: Lecture Hrs/Wk: 3
Catalog Prerequisites? Yes

Catalog Prerequisites:
CIS 2010; ENGL 1010 or ENGL 1010A, or ENGL 1010D; MATH 1010 or MATH 1000 or higher. ACCT 2020 (can be concurrently enrolled); AND CIS 2010 (can be concurrently enrolled); AND Advanced standing.

Grade Required on Prerequisite(s): N/A

Corequisites? No
Course/Lab Fee? No - Yes
Instruction Index Code: BUS205-BUS200

GE Status Requested: No

Catalog Description
Designed for Required of students pursuing a degree in Accounting, and open to gain an understanding of other students in the application School of technology in business. Business. Covers information systems solutions to business problems and accounting systems concepts fundamental to the support of business processes in the operational, strategic, and decision making roles of management. Includes accounting systems design and development, enterprise resource planning, control issues, system security, and maintenance. Emphasizes end-user end user applications of management information systems (MIS), systems, challenges of managing information technology, and using MIS as a strategic management tool.

Course Rotation:
Fall (every)
Spring (every)

Justification for course/change:
IT 3050 was only required for business students, not CIT students and it is taught by a business faculty member so it made sense to move to MIS.

There was significant overlap between ACCT 3050 and IT 3050, so MIS 3050 will continue to cover most of the same content as IT 3050 with a few important Accounting Information System (AIS) concepts added (all new concepts are relevant to business majors too).
Library Resources Adequate: Yes
Tech Resources Adequate: Yes

Course Learning Outcomes:

1. Demonstrate proficiency in the fundamentals of Information Systems.

2. Understand and identify the key elements of Global Information Systems.

3. Analyze a complex business situation, identify relevant functional business and technological issues and suggest viable courses of action.

4. Articulate strategies for implementing and/or improving information systems to create value for an organization.

5. Recognize the benefits and pitfalls of working in teams and identify strategies for improving their ability to succeed as a member of a team.

6. Identify and resolve personal, ethical, and organizational issues of Information Systems.

How do your Course Learning Outcomes align to your Program Learning Outcomes?

UHSB Program Learning Outcomes:

1. A working level knowledge of the core functional areas of business:

   A. Students will demonstrate a working level knowledge of core business functions in information systems. Aligns to Course Learning Outcome 1 & 2.
