| **Catalog Description** | Second semester course. Students learn, practice, and demonstrate intermediate level surgical technology skills with an emphasis on anticipation skills, surgical specialty instrumentation, and professional behaviors. Students also develop critical thinking competence in aseptic practice by identifying, analyzing, and correcting errors in sterile technique. Taught Offered in cohort rotation. |
| **Course Rotation:** | Spring (every) |
| **Justification for course/change:** | To correct errors and align with new courses for AAS degree. |
| **Library Resources Adequate:** | Yes |
| **Tech Resources Adequate:** | Yes |
| **Course Learning Outcomes:** | Upon completion of this course, successful students will be able to:  
1. Satisfactorily perform the roles and functions of the ST at employment entry-level.  
2. Demonstrate sterile techniques and sterile conscience necessary to prevent surgical site infections.  
3. Identify and safely handle specialty surgical instruments and supplies.  
4. Demonstrate professional behaviors expected of surgical technologists. |
| **Course Reviewer Comments** | D00002376 (01/12/16 4:17 pm): minor formatting changes in description. |
